## Introductory Note:

This is the vehicle fuel audit report for the month of June 2017. The report was produced by the company Fumeco using the Fuel Management programme Fleeteco.

In the first part the refuelling data per vehicle for the audited month are presented. In this table the Fuel Efficiency of each vehicle is calculated per refuelling. Also the monthly Fuel Efficiency is calculated. There is also a graphical presentation of all per refuelling Fuel Efficiencies.

In the second part the Monthly Fuel Efficiencies for the running year, of each vehicle is presented both in table and in graphical presentation.

This report presents all the elements for a complete audit of all the vehicles fuel consumption.

For any further explanation please send email at [kskouroupathis@fumeco.com.cy](mailto:kskouroupathis@fumeco.com.cy) .
